

Diecidecimi Optical Center

We trust in Smokecloak Security System

I own 5 Optical Centres in Italy and for years I have used traditional burglar alarms but it wasn't enough. On police arrival the thieves were already gone with significant shortfalls. I have known the existence of the fog solution for security at the MIDO, the International Optics exhibition and it made me very curious.

Mr. Rizzieri and Gruppolicromatico snc designed and produced furniture for my Optical Centres at Pempia and others Optical Centres at Stresa, Oleggio e Alba. He introduced me to the Fog Security System SmokeCloak that it seemed to be much more promising, innovative and effective. From the SmokeCloak Installation in 2008 to now I suffer 5 theft in my centers and without serious consequences. I feel much safer!

Thieves are enveloped by fog and are forced to flee even if the police has not yet arrived, this could severely limit the shortages and damage in my centers. In addition to the Fog Security system can be appreciated engagement and timely intervention installer in case of necessity or for maintenance.

I think that Smokelcoak is the best solution for the safety of my business.
