

IPA 117 Intimidator

The **IPA 117** siren generates an unbearable noise level of 117dBA providing a simple and efficient solution to deter intruders.

It has a tamper-proof steel housing 1.5mm thick and can be installed in as little as 10 minutes.

The pitch is such that it works on the inner ear of the offender and makes for a SAFE yet perceived painful and disorientating situation.

IPA 117

Physical

Dimensions	191 x 176 x 68 mm
Weight without internal battery	1.65 kg
Weight with internal battery	2.6 kg
Colour	White

Power

Battery-charging voltage	10.8 - 14,5 VDC
Consumption when alarm is not triggered	5 mA
Consumption when alarm is triggered	1.7 A
Type of internal battery	12 VDC - 2 Ah
Operational time from internal battery when alarm is not triggered	More than 60 hours
Operational time from internal battery when alarm is triggered	More than 30 minutes
Operation 1 input positive block	(+ BL)
Siren blocking voltage	9 - 16 VDC (0.1 mA)
Trigger voltage	< 1 VDC (positive) / 3 VDC (negative)
Alarm time-out	Set at 15 minutes
Alarm time-out Charging current	Limited to 200 mA
